April 30, 1991

TO: Steve Loftness, Grant Officer, Colbert Landfill
FROM: Michael Kuntz, Project Manager, Colbert Landfill
SUBJECT: Release of Grant Monies and Continued Funding of Monies to
Spokane County

In regard to our conversation of April 26, 1991, this memo is a request to release the portion of Ecology grant money, pertaining to Spokane County's domestic well sampling program, which Ecology began withholding from Spokane County in the summer of 1990. This letter is also a request to continue funding the sampling program as outlined in the grant agreement.

This request to release grant monies and continue grant funding is based on the County meeting two requirements: 1) completing a satisfactory investigation into past sampling procedures, and 2) establishing a sampling program to the satisfaction of the sampling committee.

Reference for Ecology (i.e Toxics Clean-up Program) imposing the two requirements are found in my July 2, 1990 letter to Spokane County's project manager. Reference for Spokane County completing the first requirement is found in my July 17, 1990 letter to the Manager. Reference for completing the second requirement is found in the April 22, 1991 letter from the sampling committee to me. Copies of all three letters are attached.

As per our conversation, I will telephone Spokane County's manager and inform him he may invoice Ecology's Grant Program for the released grant money.
